What is SPORT IN SCHOOLS AUSTRALIA?

Sport in Schools Australia provides primary schools with the opportunity to implement a specialised Sport/PD/H/PE program at their school. This creates the opportunity for students to be exposed to specialists PD/H/PE and sports teachers throughout the program. Our program also aims to achieve the development of the skills base, links, progressions and knowledge of K-6 students in this area of the syllabus as additional preparation prior to their commencement of secondary school PD/H/PE.

There is also research data suggesting there is a number of correlated learning benefits for children who are leading an active lifestyle and being involved in regular physical activity as well as the associated health benefits.

Students gain the opportunity to utilise a diverse range of resources in this area of the curriculum that schools cannot provide. Our unique and innovative resources are specifically tailored to the development of a wide and varied range of skills that can be implemented across a range of sporting activities and also directly relate to the K-6 age group.

The program is delivered in an environment that is conducive to young people gaining positive attitudes towards physical activity and exercise.

It is an innovative program designed to encourage students towards enjoying a positive, active, healthy lifestyle.

How is it organised?

The program is delivered in a range of complex stations that provide a wide and varied range of resources that are designed to inspire, motivate and excite students into optimal engagement throughout each weekly session. The result is an EXCITING carnival type atmosphere for all students.

Equipment

Sport in Schools has arguably the largest and most specialised range of physical education equipment within Australia. Our resources are imported from around the world and contain the latest innovations, concepts and trends to educate and develop students in this area of the curriculum and also inspire regular physical activity and exercise.

Our staff

Our organisation contains a diverse range of expertise with majority of our staff 4 year trained PD/H/PE teachers. Our teachers not only have the expertise and qualifications in this specialised area of education but are also highly motivated and value this important area of student education and teaching within the primary curriculum.
